

Unikum

- en lärportal för förskolan

Unikum – a learning portal for preschools

Unikum is a learning portal that the preschool is now using for planning, documentation and reviews.

As a parent/guardian, you can use Unikum Familj to readily follow and be involved in what's happening at the preschool and in your child's day-to-day life, development and learning in preschool. And it's accessible via both mobile phone and computer. Unikum keeps track of documentation, information from the preschool and booking of development reviews. Visit our website to find out more about how you can use Unikum!
